

Rother District Council

CLIMATE CHANGE STEERING GROUP TERMS OF REFERENCE

1. Purpose

On 16 September 2019 Full Council passed a motion declaring a 'Climate Emergency' and made a carbon neutrality commitment for Rother District with a target date of 2030. The Climate Change Steering Group has been established by Cabinet to develop, plan and initiate the steps that the Council will need to take to meet this highly ambitious target.

2. Objectives

- To produce an action plan or strategy that is designed to ensure that the operations of the Council are carbon neutral by 2030.
- To agree and monitor a set of Key Performance Indicators to ensure that the Council meets its carbon neutral objective by 2030.
- To identify relevant existing powers that the Council may exercise, and any additional powers to be requested from Central Government, that could be used to encourage carbon neutrality throughout the district.
- To identify which policies, strategies and working practices of the Council might require amendment, and to outline a timescale for reviewing these.
- Identify and consult with existing external bodies and partnerships; and make recommendations on new partnerships that should be established to help achieve the 2030 target.
- Identify citizens across Rother who are climate champions for their communities and to use them to inform on ideas to implement locally.
- To investigate all possible sources of external and internal funding, including the Council's Community Infrastructure Levy's Climate Emergency Bonus Fund and match funding to support this commitment.
- Investigate what Rother District Council can do to minimise the emission of gases other than CO₂ which adversely affect climate change.
- **Once established, to monitor the Communication Strategy in connection with the contract for the enforcement of environmental offences.**
- To present a pre-consultation draft action plan to Council for consideration no later than 24 February 2020, including recommendations for next steps and resource requirements.

3. Scope

For the purposes of this initiative, the operations of the Council are considered to be any action taken by the Council either institutionally or through its Members, staff, volunteers, and contractors in the discharge of its duties.

In developing the action plan the Steering Group will need to consider the existing carbon footprint of the Council, existing and emerging carbon reducing technologies, opportunities for change in institutional and personal behaviour, the impact of Council property assets, and the likely financial cost and resource requirements for meeting the 2030 target.

The Steering Group will also consider wider issues related to climate change over which the Council might wield influence, but do not directly contribute to our own carbon footprint.

4. Membership and Structure

The Climate Change Steering Group will be a cross party group of seven Members. The Group will be chaired by the Lead Member for Environment and Transport and will consist of one other Executive Member and five non-Executive Members, reflecting a broad political balance.

Councillors S.J. Coleman, K.M. Field, P.J. Gray, L.M. Langlands, P.N. Osborne and S.M. Prochak.

5. Meetings

The Steering Group will meet regularly, the frequency, time and venue to be decided by the Members in liaison with officers. Meetings will be open to the general public and Members may also wish to organise public engagement events as part of the action plan development.
