Policy/ Strategy/Other Relevant Factors		
Locality Description	<p>Located in the easternmost part of East Sussex, and bordering Kent, Rother is a predominantly rural district which includes pockets of severe and enduring deprivation, within an area of relative affluence. The District derives its name from the River Rother which traverses the northern part of the area from Ticehurst through rural villages to reach the English Channel at Rye.</p> <p>The District covers some 200 square miles and serves a population of around 90,000 residents. The main urban areas are Bexhill with its distinctive town centre and seaside character and the historic towns of Battle and Rye.</p>	 <p>The map displays the geographical layout of Rother District Council, divided into several wards. The wards are labeled as follows: Hurst Green & Ticehurst (northwest), Burwash & the Weald (west), Robertsbridge (north-central), Northern Rother (north-east), Eastern Rother (east), North Battle, Netherfield & Whatlington (central-west), South Battle & Telham (central), Sedlescombe & Westfield (central-east), Brede & Udimore (east-central), Rye & Winchelsea (east), Catsfield & Crowhurst (south-west), Southern Rother (south-east), and Bexhill Wards (south-west). The map shows the district's coastline along the English Channel to the south and east, and its border with Kent to the north.</p>

Local Plan Core Strategy (2011-2028)	<p>The overall vision for Rother contained in the Core Strategy presents a description of Rother in 2028, highlighting the changes from today. “Rother District is recognised for its high quality of life, where there is a strong emphasis on community life. This has been achieved by continuing to support and further develop vibrant, safe, balanced and inclusive communities.</p> <p>There is a strong commitment to a more sustainable, low carbon future and adapting to climate change. There is sensitive stewardship of environmental resources and conservation of the area’s outstanding environmental and cultural assets. Sustainable economic growth has been secured, with much improved job opportunities, which encourage young people to stay in the area and provides greater prosperity for all. Improved economic and social well-being has been facilitated by better access to jobs and services, in both urban and rural areas, and improved connectivity with the rest of the region, including through effective telecommunications networks. Development and change has contributed significantly to meeting local needs and aspirations, having responded positively to the district’s circumstances, as well as to regional and sub-regional imperatives.</p> <p>There has been a notable improvement in economic conditions in the coastal towns of Bexhill and Rye as a result of a strong focus on regeneration notably through close working with neighbouring Hastings.</p> <p>Bexhill has retained and strengthened its distinct identity and become one of the most attractive places to live on the south coast - attractive to families, the young and older people alike. It is the main focus of development in the district, and this continues to enable improvements in the supply of jobs and services.</p> <p>Rye has improved its economic and social circumstances whilst fully respecting and sensitively managing its historic character, vulnerability to flooding and ecologically important setting. It maintains a strong tourism sector and Port activities. The inland and essentially rural areas of Rother, falling mainly within the High Weald AONB, retain their essential local character. Battle continues to be a thriving small market town and tourist centre which retains its character, with sensitive conservation of its historic core and setting.</p> <p>The character and diversity of villages has also been retained. They are vibrant and inclusive, having evolved organically in a manner sensitive to their surroundings. The countryside continues to be protected for its intrinsic value as well as being more accessible and economically active, while change is carefully managed to respect its character.”</p> <p>The vision translates into the following Strategic Objectives; Table 1 – Strategic Objectives for Rother District Vision 2028 Theme Strategic Objective Overall Spatial Strategy To achieve a pattern of activity and development that contributes to the Sustainable Community Strategy, the ‘Spatial Vision’ and responds to particular local circumstances and environmental resources.</p> <p>Through the development of the Local Plan the vision, objectives, key issues and challenges will be determined. The following table (Figure 4) outlines the considerations that will be made by officers, Members and other stakeholders when determining the appropriate mechanism for delivering each element in the production of the Local Plan.</p>

All options and potential strategies will be considered, as follows:</p> <p>Spatial Principles for Planning Development:</p> <ul style="list-style-type: none"> ➢ Settlement studies ➢ Principles for development in the High Weald Area of Outstanding Natural Beauty (AONB), ➢ Strategic/Countryside Gap between settlements, ➢ Gypsy and Traveller Provision <p>Strategy Options:</p> <ul style="list-style-type: none"> ➢ Need to maximise supply of housing in line with the standard methodology identified level of need, ➢ Assess whether proportional growth across the District is appropriate and a realistic opportunity ➢ Focus on development along key transport corridors ➢ Urban Intensification and redevelopment ➢ Urban extensions including development along Hastings Fringes ➢ New settlements ➢ The role and relationship of Neighbourhood Development Plans ➢ Windfall Development Strategy ➢ Consider the capacity for growth in rural areas ➢ Delivery of renewable energy schemes and policy ambitions <p>Policy Options for Growth:</p> <ul style="list-style-type: none"> ➢ Consider the use of new or amended settlement development boundaries, ➢ Identify potential site allocations, ➢ Assess the capacity and sustainability of settlements through the evidence base, ➢ Balanced residential and commercial growth across the District, 	<p>Housing and Economic Land Availability Assessment (HELAA) to identify sites that are suitable, available and achievable for development. This study will not be dictated to by a housing target but will seek to identify the maximum supply of available sites.</p> <ul style="list-style-type: none"> • In seeking to maximise supply, and informed by the HELAA, the Council may consider a combination of various policy options as overall options in isolation may be limited. • Options for development will be discussed during the key tasks associated with 'Stage 5 – Option Development outlined in the Scope of Work'. • There will be early consideration of whether there are any cross-boundary locations for growth, and whether any locations have cross boundary strategic planning implications. • Once the Council has considered its development strategy, it may be necessary to engage with neighbouring LPAs to request their ability to help meet any unmet housing or employment need. 	Topic/Background Paper approach to New Local Plan	<ul style="list-style-type: none"> ➢ Consider affordable housing policies and exception sites, ➢ Consider infrastructure provision to support development ➢ Consider the overall viability of development to deliver the Council's 'Green Agenda' • Need to consider the potential for cross-boundary growth locations • If necessary, engaging with neighbouring LPA's to request their ability to assist with any unmet need <p>• A topic paper based approach is proposed to ensure conformity with NPPF/PPG, other planning guidance and the development of policy options through the Sustainability Appraisal framework, to reach preferred policy options. A topic/background paper approach helps provide the level of detail that ensures explanatory text in the Local Plan is focused and not excessive.</p> <p>• The background/topic papers will need to remain focussed, explaining the development of policies, with appropriate cross references to and summarises of the Sustainability Appraisal, without repeating its specific purpose.</p> <p>• The Council will undertake a compliance check with Parts 2 to 4 of the PAS Toolkit as the Local Plan progresses. This will also assist in the overall development of the background papers.</p>	<ul style="list-style-type: none"> • Topic Background Papers could include (but not limited to): <ol style="list-style-type: none"> 1. To facilitate the provision of flexible, attractive and sustainable opportunities in Rother for the population to participate in sport and physical activity, with a particular focus on inactive individuals from under-represented population groups and priority areas. 2. To utilise sport and physical activity participation as a driver for community development and building social capacity in Rother. 3. To increase our level of insight into local resident's physical activity behaviour and the influences that could support them to be more active. 4. To utilise behaviour change approaches to help support inactive individuals into sport and physical activity opportunities 5. To widen the appeal of participation by raising the profile of physical activity using the Active Rother brand 6. To develop and implement a shared approach to understanding the impact of our work In order to achieve these aims, the partnership will undertake a wide range of work as set out in appendix 1 of this strategy.

Active Sussex Strategy 2018-2023

ABOUT US - As a registered charity, Active Sussex’s main aim is to reduce the percentage of inactive people in Sussex by 2028. We are part of the national County Sports Partnership Network, and work with stakeholders across the county to build strong relationships. Together, our goal is to increase the number of people participating in sport and physical activity in Sussex.

VISION - Driving physical activity transformation in Sussex, which sees more people active and healthier communities.

MISSION - We will listen to people in Sussex to understand how they want to be active. We will work with new and existing partners to drive improved access to opportunities for those most at risk of inactivity, especially older people, those with disabilities and long-term conditions, young people and those who live in areas of high deprivation.

AIM - By 2023 our aim is to see 5% fewer inactive people in Sussex, and 10% fewer inactive people in the county by 2028, so that all our local authorities have activity levels better than the national average.
