OSC18/52. RECOMMENDATIONS OF THE TOURISM TASK AND FINISH GROUP

Members received the report of the Executive Director detailing the recommendations arising from the Tourism Task and Finish Group (TTFG) and the recommended revised Tourism chapter of the Council's Economic Regeneration Strategy.

The Group held six meetings between August 2018 and March 2019, with four meetings focusing on different aspects of the visitor economy. Partners, stakeholders and businesses were invited as appropriate to present to the Group and take part in the discussions.

Each meeting resulted in a number of recommendations coming forward. At its final meeting in March 2019 the TTFG reviewed and consolidated these recommendations and the final list of recommendations which was attached as Appendix 2 to the report.

The TTFG was also tasked with updating the Tourism chapter of the Council's Economic Regeneration Strategy. This was considered having regard to the deliberations of the TTFG and the recommendations arising from these, and the draft chapter was attached as Appendix 3 to the report for recommendation to Cabinet and Full Council.

The recommendations and the draft chapter took into account the changes that had taken place in the visitor economy over recent years;

in particular the emergence of new technologies and the opportunities and challenges that this presented to the local visitor economy. The recommendations also acknowledged that the Council's capacity and priorities were of necessity shaped by the resources at its disposal; and that the Council had to target its activity at those areas where it could have the greatest impact.

The Chairman of the TTFG led Members through the Group's recommendations, thanked TTFG Members, Councillors Mrs Hart and Hollidge for their attendance, those who attended and presented findings to the TTFG at the meetings and officers for their support.

Members had an opportunity to put forward questions and the following points were noted:

- Members agreed that 1066 Country Marketing be asked to provide an update on how the Council's funding of £50,000 was spent to ensure value for money;
- Members agreed that the draft Visitor Economy Chapter include reference to Skills East Sussex (a sub-section of Team East Sussex) who worked with education providers to promote career opportunities in the tourism sector;
- it was noted that Business Improvement Districts had worked well in other authorities;
- Members agreed that a review of the recommendations be carried out after a year, as the industry was constantly changing and growing;
- the Economic Regeneration Strategy was a high level strategy and the tourism chapter recognised Rother District Council as an enabler, supporting partnerships such as 1066 Country Marketing through funding and officer time;
- the importance of the Public Realm was implicit in the Strategy;
- Members noted Government were being asked to review regulations governing those providing shared accommodation and considered it good practice to introduce a self-regulation scheme for the sharing economy tourism accommodation and noted that work would not be carried out to identify accommodation;
- Members were pleased to note the recommended changes to event funding and the introduction of a scoring system for funding applications, with a greater weighting awarded to those events planned for the shoulder season;
- Members agreed that Parish Councils be added to the draft Visitor Economy Chapter as having a role in tourism.

(Overview and Scrutiny Committee Agenda Item 5.1).

Dr Anthony Leonard
Executive Director

Draft Visitor Economy Chapter to the Council's Economic Regeneration Strategy

Support the visitor economy

Why?

The total value of tourism activity in Rother is £329.2 million, which supports over 5,500 full time jobs, equating to 29% of all jobs within the district. Tourism is a key contributor to the district's economic and social wellbeing. It supports businesses, both directly and indirectly, and has an interdependent relationship with a range of sectors, including farming, transport, retail, food and drink, arts and museums and culture.

Tourism helps to create a positive image for the district which encourages inward investment and provides a great place for locals to live and work.

How is this achieved?

- By effective promotion of the area to visitors.
- By the availability of good quality information that meets customer requirements.
- By maintaining and improving the range and quality of the tourism offer, including attractions, accommodation and customer service.
- By enabling a range of quality events and festivals throughout the year to attract visitors.
- By supporting businesses to take advantage of growth areas and new technologies.
- By working in partnership to develop new products and services, particularly those that use, protect and promote the natural environment.

Who else is involved?

- Private sector businesses, including accommodation providers, attractions and other service sector businesses, events promoters and organisers.
- Local Authorities including Hastings Borough Council, Wealden District Council, East Sussex County Council and other neighbouring authorities.
- Parish Town Councils.
- Chambers of Commerce and other business representative organisations.
- Regional bodies, including Tourism South East, Skills East Sussex, Visit Britain, Visit England, South East Local Enterprise Partnership and relevant sectorial sub groups.
- Cross-sector partnerships, including 1066 Country Marketing and other local marketing and tourism partnerships.

The Council's Role

As an advocate:

We will promote the importance of the tourism industry when representing Rother in policy discussions at regional and national level.

We will encourage growth in the number of high value-added visitors to Rother, in order to increase spend per head and maximise the benefit of visitors to the local economy.

We will continue to lobby for resources to support the development of the tourism sector, particularly around support for emerging sectors and trends in the digital environment.

We will help to raise awareness amongst peer-to-peer accommodation providers of their legal duties and liabilities when offering accommodation, especially in relation to fire safety and health and safety.

We will lobby, with partners, for greater regulation of peer-to-peer platforms that promote tourism accommodation (such as Airbnb), to protect consumers and ensure that regulations are applied consistently for all visitor accommodation providers.

We will lobby for greater awareness and uptake of careers in the tourism sector.

We will help support the tourism sector in understanding the implications of macro-economic forces driving changes in the visitor economy (such as new technologies, Brexit).

As a service provider and legislator:

We will continue to commission and fund visitor research to inform future decision making and service delivery and share information through our networks.

We will review the delivery of the Visitor Information Services provision in preparation for when the current contract expires in 2021, having regard to trends in visitor behaviour and requirements and the advances of digital technology and new media channels. Consideration will also be given to expanding the provision through working with partners.

We will offer support to businesses to capitalise on new media platforms, including shared economy platforms and how to adapt and diversify their product.

We will ensure that the Local Plan encourages the provision of new quality accommodation across the district with a focus on good quality serviced accommodation, particularly in central Bexhill.

In the absence of national regulatory controls, we will consider implementing a local self-regulating scheme for peer-to-peer accommodation providers in Rother.

We will continue to deliver or support related amenities such as car parks, parks and gardens, leisure facilities and museums; and we will continue to support the visitor economy through our statutory roles in Licensing, Planning, etc.

As a partner and enabler:

We will continue to support the 1066 Country Marketing Partnership through funding and officer time, and contribute to reviews of its marketing strategy. We will also press for more private sector funding to help support the 1066 Country campaign.

We will support, fund and promote visitor events and festivals that aim to bring in additional visitors from outside the district. Encouragement will be given to shoulder season events to help level out the seasonality of tourism in the area.

We will continue to work with national and regional partners and networks to develop, deliver and promote projects and programmes relating to the visitor economy, cultural tourism and nature tourism.

We will continue to work with local partnership groups and stakeholders who have a role in the promotion of the destination to visitors, where this activity is complementary to the 1066 Country campaign.

We will work with developers and landowners to encourage the development of more serviced accommodation in the district, in accordance with Local Plan policies and Corporate Plan objectives. We will also encourage the development of new non-traditional tourism products and services, including diversification of existing tourism businesses looking to respond to market changes. This could include the development of 'niche' holiday accommodation and existing businesses looking to diversify to capitalise on market trends.

We will encourage and support initiatives and attractions to increase visitor numbers, particularly staying visitors, where they support the objective to increase spend per head in the district.

We will maximise the use of external funding opportunities where appropriate to support the development and delivery of tourism projects and initiatives across the area.

As a deliverer of projects:

We will continue to deliver the actions and projects set out in the Council's Corporate Plan. Specific projects linked to tourism include:

- Coastal Environments, including improvements to East Parade, Bexhill.
- Development of a new leisure centre and related facilities at Bexhill.
- Economic Regeneration at Camber.
- Development of a Walking and Cycling Strategy.
- Combe Valley Countryside Park.

We will continue to develop and deliver other projects in support of the visitor economy as opportunities arise.
